DETAILED ACTION

Response to Amendment

1. The compliant amendment and remarks, filed November 22, 2006, and February 27, 2007, are noted with appreciation.
2. Claims 1-13 remain pending.

Election/Restrictions

3. Claims 9-13 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on June 8, 2006.

Response to Arguments

4. The objection to the abstract and the rejections under 35 USC 112, 2nd Para., set-forth in the prior Office action, are withdrawn in view of the amendment.
5. Applicant's proposed amendment to the title, set-forth at page 5 of the remarks filed November 22, 2006, is accepted. The objection will be maintained until the title is changed by amendment.
6. Applicant's arguments filed November 22, 2006, have been fully considered but they are not persuasive.

A. It remains the Examiner's position that it would have been obvious to one of ordinary skill in the art to incorporate the conductive particles taught by Kawasaki in the fluororesin layer of Honda. Honda teaches that the conductive particles can be "any of the commercially available ones," which would have motivated one of ordinary skill to look to the prior art for such suitable particles. Kawasaki teaches examples of conductive particles suitable in the roller applications of Honda. There is no evidence of record that the conductivity of the particles taught by Kawasaki is

Art Unit: 1762

dependent upon the type of resin in which the particles reside. Consequently, it would have been obvious to utilize such particles.

B. The rejections are maintained.

Specification

7. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

A. As noted above, Applicant's suggested change is acceptable. This objection will be maintained until said change is made by amendment.

Claim Rejections - 35 USC § 103

8. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

9. Claims 1-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Honda et al. in view of Kawasaki et al.

A. These claims are rejected for the same reasons as set-forth in the prior Office action.

B. The rejections are maintained for the reasons set-forth above.

Conclusion

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed,

Art Unit: 1762

and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
